

Downtown Construction Activities

Proposed work activities for the week of July 11th, 2021

- The contractor at the Generals Bridge project will begin installing new communication conduit underneath the proposed sidewalk along the east side of Thomas Burgin Parkway and continue to prepare the area on either side of the bridge roadway for the future sidewalks.
- At the McConville Way project the contractor will continue construction of the streetscape aside the new roadway. The streetscape work includes the continued installation of plants, brick pavers, polymetric sand, sidewalk caulking, catenary lights (alleyway), and roadway signage. At the future pocket parks, the contractor will finish caulking paver joints, planting shrubs, and sweeping in polymetric sand between brick pavers. In addition, the contractor will finish placing the pavement markings along Parkingway, Granite St, Hancock St, Walter J Hannon Parkway, and McConville Way. During the time of the pavement marking installation there will be temporary detours of these roadways. Most of this work will be performed at night.
- At the old 100 Parking Way site the contractor will finish install of new parking lot signage and finish install of the parking lot kiosk. The new parking lot remains closed during construction.
- Work continues along the face of the of 25 Temple St building for the new structural steel that will support the future addition above. Currently, the sidewalk along Temple St at the building remains open during construction.

(The photo on the above left shows the contractor installing the remaining streetlight along McConville Way with the new parking lot in the background. The above right photo shows the contractor welding the new structural steel at the face of 25 Temple St building along Temple St.)
